## Authorisation of measuring companies in the Baltic States

Follow-up of deviations after approximately six months.

No requirement for physical audit, but

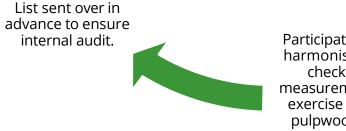

review of checklist.

Control report submitted no later than 14 Feb. Appraisal.

**Every year** 

Participate in harmonising check measurement exercise for pulpwood. Evaluation of results.

Based on Biometria's recommendation, RMR\* decides to issue certificates of authorisation for a threeyear period, with annual reviews.

When previous authorisation is about to expire or when new authorisation is needed.

In addition, every third year...

Enter into agreement with measuring company about authorisation work.

Biometria conducts physical audit using a checklist.

\* If consensus cannot be reached, the decision is raised to Biometria's board.
