Document history

Version	Date	Description	Signature
3.0	16-03-04	• Moved Legend to slide 2 to harmonize with other SDC use cases.	JeNo
2.0	15-01-05	• Updated first and second slide with new Use Case Title • Changed parties to Logistics Buyer and Logistics Supplier from Forwarder and Main Carrier respectively. • Updated activities of Measuring Party and Place of Measuring • Updated Truck activities with new names of right-most 4 activities. • Added optional data exchange "Request Change in Delivery Instruction" from Carrier to Logistics Supplier. • Slide 3 "Legend" was updated with Carrier as example of party.	JeNo
1.0	14-06-11	First public version.	JeNo
0.1	14-05-09	Initial version	JeNo

A change to the version history requires an update of date and version in the upper right corner of each slide.

The numbering format is Revision.Version, where Revision is an official document release and Version exceeding 0 is an internal work document. Please note that only if the document version has suffix 0 it is an official SDC version, e.g. 1.0, 2.0, 3.0, but NEITHER 0.1, 1.2 nor 1.10. The version suffix is initialized for each new revision level.
